# User Journey Map - Automating Data Import & Rlelationship Mapping using Import Sets & Dot Walking

## User Persona

- IT Admii / ServiceNow Dveloper
- Incident Manager

Your organization wants to regularly import a list of new employees with their details, such as Name, Email, Department, and Manager, from an external system. Once imported, when an dIncident is assigned to an employee, the Incident form should automatically show the manager's email of the employer's department.

| Entice (Awanees / Need Recognition) | Enter (Setup & Preparation) | Enter (Setup & Preparation) | Engage (Data Import & Transformation) | Exit (Completion of Task) | Extend (Post-Usage / Scaling) |
|---|---|---|---|---|---|
| **Steps**<br>Organization identifies need for automation<br>Manual import issues notiiced | **Steps**<br>Create employee data file in Google Sheets<br>Export as CSV/XLSX<br>Navigate to ServiceNow Import Sets | **Steps** **Steps**<br>Create employee data in Google Shees<br>Export as CSV/XLSX<br>Navigate to ServiceNow Import Sets | **Steps** **Steps**<br>Upload file to import_employee' table<br>Create Transform Map<br>Map fields (Auto Map + Mapping Assist)<br>Run Transform | **Steps**<br>Create/Assign Incident<br>Select "Assigned To" (employee)<br>System fetches<br>Department, Manager Email | **Steps**<br>Schedule recurring imports<br>Monitor taita patist)<br>Scale for more employees |
| **Interactions**<br>Internal discussions,<br>Reports showing data inconsisteny | **Interactions**<br>Google Sheets<br>ServiceNow UI (Load Data) | **Interactions**<br>Google Sheets<br>ServiceNow UI (Load Data) | **Interactions**<br>ServiceNow Import Set Table<br>Transform Map UI<br>Mapping Assist | **Interactions**<br>Incident Form<br>ServiceNow UI | **Interactions**<br>Scheduled Jobs<br>Logs / Monitoring |
| **Goals**<br>Reduce manual work<br>Improve accuracy | **Goals**<br>Prepare clean dataset<br>Start import process | **Goals**<br>Prepare Idean dataset<br>Start import process | **Goals**<br>Accurale siapting execution<br>Records appear in sys_user | **Goals**<br>Instantly view manager email<br>Avoid manual lookup | **Goals**<br>Feater flouatl effort<br>Scalable system |
| **Positive Moments**<br>Clear problem identification<br>Repeated data errors, Time wasted in manual | **Positive Moments**<br>Repeated data errors,<br>Time wasted in manual updates | **Positive Moments**<br>Guccessful transform-ecciition<br>Records appear in sys_user | **Positive Moments**<br>Successful transform execution<br>Records appear in sys_user | **Positive Moments**<br>Auto-populated manager email<br>ISacrefSI, manager reference | **Positive Moments**<br>Missing data if mapping failed<br>Incorrect manager reference |
| **Areas of Opportunity**<br>Introduce automation using Import Sets | **Areas of Opportunity**<br>Introduce automation using Import Sets | **Areas of Opportunity**<br>Add- validation before upload | **Areas of Opportunity**<br>Improve: UI visibility<br>Real-time validation | **Areas of Opportunity**<br>Optimization<br>Monitration<br>Integretes, tatless | **Areas of Opportunity**<br>Optimization<br>Integration with HR APIs |
